About Escargo & Co-bikes

Escargo Delivery is Exeter's first wholesale delivery service using electrically assisted cargo trikes. Established in 2017, Escargo works with a range of local businesses across the city to deliver their goods while saving them time, staying out of congestion and improving our air quality. We are on the road 6 days per week

The Co-bikes Exeter network was the first on-street, city wide, shared electric bike network in the UK. Currently operating with 6 hubs and 20 bikes, we will be expanding in early 2019 to 14 hubs and 100 bikes. We are part of Co-cars, the car hire by the hour club for Exeter and the South West. There is an opportunity for applicants to be considered for a part time role alongside this one, working with Co-Bikes as they expand. Please indicate on your application whether you would be interested in being considered for both roles.
